

MAXIVISION EYE CARE

Dear Patients,

With everything going on surrounding COVID-19, we are currently following the CDC recommendation to see patients on an urgent care basis by appointment. If you have a medical eye emergency call 630-904-1900. We will arrange for you to see the doctor.

To better serve you starting Monday March 23, 2020 until Sunday April 5th, 2020 or until further notice the following will be the procedure for the safety of patients and staff .

We will arrange by phone a day and time for a staff member to be in the office to take your order over the phone or for you to pick up glasses or contacts by curbside service only at our office. Further we will be answering our phones for any questions or concerns you may have.

If you are a contact lens wearer and currently have less than a 3-month supply of contact lenses left, we highly recommend that you place an order now. We will ship them directly to you.

We will extend contact lens prescription expiration dates on a case by case basis. All contact lens wearers will be scheduled for evaluation as soon as the CDC says it is safe to do so.

We appreciate your help and we want to assure you we are doing everything we can to keep you and us safe.

Call us at 630-904-1900 or email us at Lisandra.garcia@maxivisioneyecare.com and Itzel.garcia@maxivisioneyecare.com to place your order or if you have any questions.

Your Maxivision Eye Care Team.

Date March 21st 2020
